

# Fabricated Foam Products

## Packaging Services

*Design*

*Material Selection*

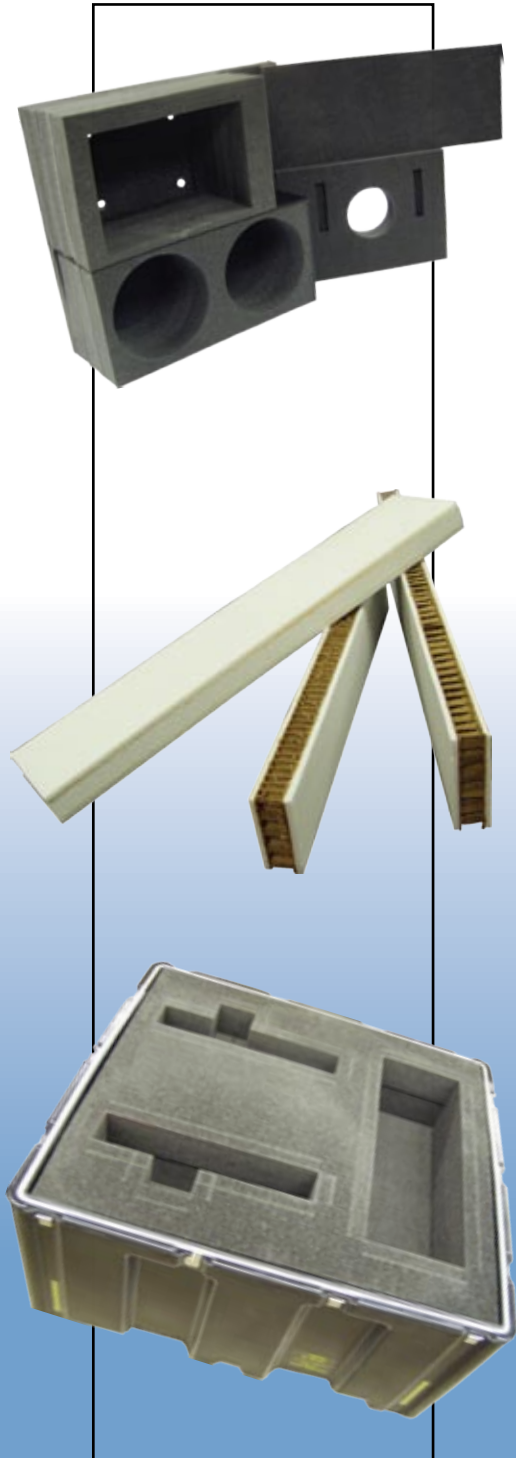

*Engineering*

*Prototyping*

- We offer a full range of packaging solutions from basic protection to complex designs that will protect items in the most demanding shipping situations.
- Expert design and manufacturing of in-plant handling trays and totes that offer maximum protection, efficiency of handling, and reusability.
- Materials range from lightweight expanded polystyrene for low cost protection, to rugged 9 lb. density polyethylene for heavy-duty applications.

## Engineering Capabilities

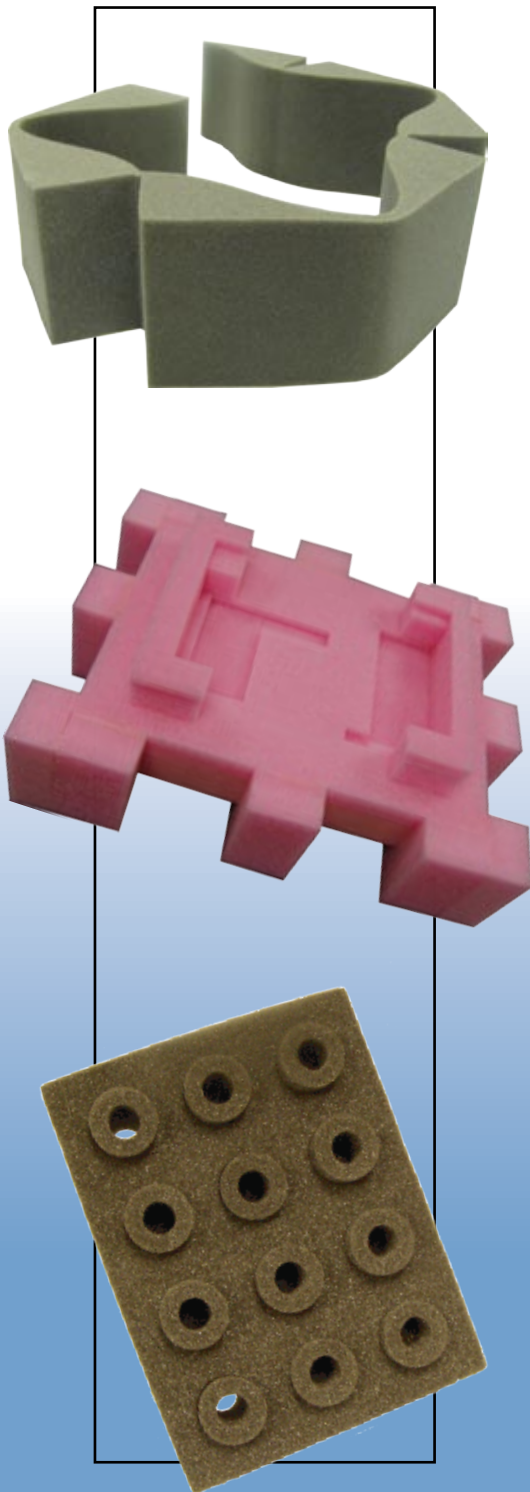

- Die Cutting
- Gluing
- Welding
- Skiving
- Slitting
- Laminating: Various Substrates
- Molding: Flexible & Rigid Foams
- Plastic and Foam Thermoforming
- Contour Cutting
- CNC Milling Conical and Intricate Shape Assembling

# Fabricated Foam Products

## Industries Served

- Automotive
- Electronic
- Medical
- Material Handling
- Appliance
- Glass/Glass Products
- Motors/Gears/Machined Parts
- Custom Packaging
- Military Packaging

## Materials & Products

- Conductive Foams
- Sound Dampening, Barriers
- Vinyl Coated Foams
- EVA Copolymer
- Angleboard
- Reticulated Foams
- Transport Case Inserts
- Anti-Static Foams
- All Related Packaging Materials
- Polyurethane
- Polyethylene
- Cellular Rubber Products
- Cross-linked Foam
- Plastic Corrugated
- Open and Closed Cell Gasket
- Foams and Synthetics
- RCA (Recyclable Class A Surface) Foam
